TTA Exclusive Trip to Rama IX Museum

The Rama 9 Museum, the largest museum in ASEAN, is a homage to the ideas and ideals of His Majesty the late King Bhumibol Adulyadej.

This unique museum divides the exhibits into three main zones: Our Home, Our Life, and Our King.

The three main zones carry educational information such as human development, the environment, and the late king's dedication to improving people's lives.

Other than the visual displays that consume enormous amount of energy that requires solar power to harness, the museum also offers various educational programs for kids and families to participate.

The schedule for the educational programs will be available on their Facebook page at the beginning of the month.

19th May, The Commemoration of Ataturk, Youth, and Sports Day

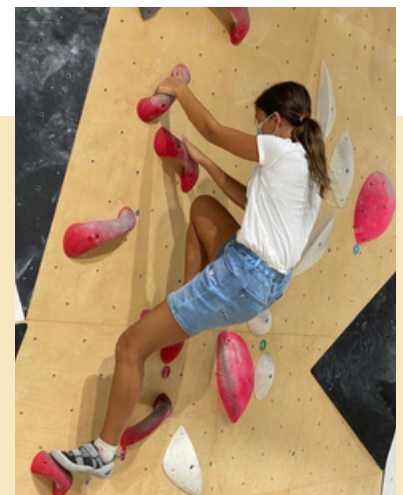

The Importance of 19th May, The Commemoration of Ataturk, Youth, and Sports Day

Every year, Turkey celebrates 19th May as the Commemoration of Ataturk, Youth, and Sports Day. It is celebrated to commemorate Mustafa Kemal landing at Samsun on 19 May 1919, which is regarded as the beginning of the Turkish War of Independence.

Our Special Activity

On the special occasion of 19th May, The commemoration of Ataturk, Youth, and Sports Day, TTA planned a special trip to Lumpini Park for a Sunday Morning walk to promote exercising; however, due to the extremely heavy rain, TTA has to slightly change the plan for this celebration. Instead of the morning walk, TTA had a get-together brunch and brought the kids for indoor rock climbing.
